

**TENURED OR
TENURE-TRACK POSITIONS
High Resolution Electron Microscopy**

Brandeis University in Waltham, MA is seeking to hire two qualified individuals to fill tenured or tenure-track positions in high resolution electron microscopy, to begin on or after July 1, 2006. Candidates have established, or plan to establish, a vigorous externally funded research program and will be enthusiastic teachers at the undergraduate and graduate levels. Brandeis has a highly interactive faculty and encourages interdisciplinary approaches to research. Ideally, the candidate's research program will interface in one or more areas of existing strength including, but not limited to, structural biology, neuroscience, cell and molecular biology, chemistry and physics. The University has a state-of-the-art electron microscope facility including a 300 kV field emission cryo EM with energy filter and a 4k CCD camera, and substantial image processing capabilities. CVs and three letters of recommendation should be sent to **EM Search Committee, Provost's Office M.S. 134, Brandeis University, 415 South Street, Waltham, MA 02454**. Consideration of completed applications will begin on November 15, 2005. *Brandeis University is an equal opportunity employer, committed to building a culturally diverse intellectual community, and strongly encourages applications from women and minorities.*
