

The Faculty of Chemistry and Pharmacy of the Julius-Maximilians-University Würzburg (Germany) invites distinguished individuals with a PhD and Habilitation or equivalent qualifications to apply for a tenured faculty position. Candidates for the position

## **Biochemistry (W2)**

should have outstanding expertise in structural biology, with a focus on

### **cryo-electron microscopy techniques of biological macromolecules.**

The position will be affiliated with the “*Biocentre*” as well as the “*Rudolf-Virchow-Centre for Experimental Biomedicine*”. The successful candidate is expected to set up a strong and interdisciplinary research program and will participate in undergraduate and graduate teaching programs in Biochemistry and Chemistry.

The University of Würzburg is committed to building a diverse faculty; women are strongly encouraged to apply for this position. Persons with disabilities will be hired preferentially if equally qualified. At the time of appointment, applicants must be 51 years of age or younger (exceptions apply in unusual circumstances according to Art. 10 Abs. 3 Satz 2 BayHSchPG). Applications including a cover letter, CV, a research and teaching statement, lists of publications and of active as well as past research grants should be addressed to the “*Dekan der Fakultät für Chemie und Pharmazie der Universität Würzburg*” and submitted in electronic form by **31.03.2015** to [w2-biochemie@uni-wuerzburg.de](mailto:w2-biochemie@uni-wuerzburg.de). Additional information can be found at
