

# Cryo-TEM and CLEM Technology Workshops

Produced by the OHSU Center for Spatial Systems Biomedicine  
and the Pacific Northwest Microscopy Society

**Sunday, Aug. 2, 2015**  
**12–5 p.m.**

**MMC Laboratories  
and OHSU/FEI Living Lab for Cellular Biology**  
Collaborative Life Sciences Building  
2730 S.W. Moody Ave.  
Portland, OR 97201

## Cryo-TEM workshop

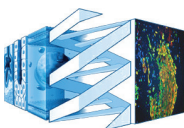

Includes cryo-preparation (cryo-sectioning and cryo-specimen preparation with the FEI Vitrobot) and imaging techniques (cryo-TEM, cryo-tomography) on our Titan Krios.

## CLEM workshop

Includes sample preparation workflow for iCorr technologies, and CorrSight/Helios with control of both light and electron microscope by one single, easy-to-use MAPS software package.

Sponsored by FEI
