

Workshop on the Resolution Revolution in 3D Cryo-Electron Microscopy

11-12 January 2016

The David Lopatie Conference Centre,
Weizmann Institute of Science

Recent advances in 3D cryo-EM of macromolecules and cells are revolutionizing structural biology. Participants in this workshop will discuss technological advances in cryo-EM with leading researchers in the field and learn how these advances can provide new functional insight on biological systems.

Speakers

Yifan Cheng, UCSF, San Francisco
Lia Addadi, Weizmann Institute of Science, Rehovot
Michael Elbaum, Weizmann Institute of Science, Rehovot
Andreas Hoenger, University of Colorado, Boulder
Deborah Fass, Weizmann Institute of Science, Rehovot
Werner Kühlbrandt, MPI Frankfurt
Stefan Raunser, MPI Dortmund
Peter Rosenthal, Crick Institute, London
Helen Saibil, Birkbeck College, London
Maya Topf, Birkbeck College, London
Sharon G. Wolf, Weizmann Institute of Science, Rehovot

Scholarships

Travel fellowships are available for students and postdoctoral fellows. Details for application requirements are on the website

Web Site

Important dates

Nov 8 2015 Scholarship application deadline

Dec 1 2015 Abstract deadline

Jan 1 2016 Registration deadline

Organizing committee

Nadav Elad, Weizmann Institute of Science
Michael Elbaum, Weizmann Institute of Science
Gideon Schreiber, Weizmann Institute of Science
Joel Sussman, Weizmann Institute of Science
Sharon G. Wolf, Weizmann Institute of Science

Sponsors

Moskowitz Center for Nano and Bio-Nano Imaging

Supported by the I-CORE Program of the Planning and Budgeting Committee and The Israel Science Foundation (grant No. 1775/12)

Coordinator

Irit Veksler
