

# High-resolution CryoEM — CLEM — Dynamic 3D imaging

## Platform Manager — Advanced Bioimaging

£38,511 — £45,954 p.a.  
Closing 5th November 2015

We are searching for an outstanding scientist to lead our new Research Technology Platform in Advanced Bioimaging

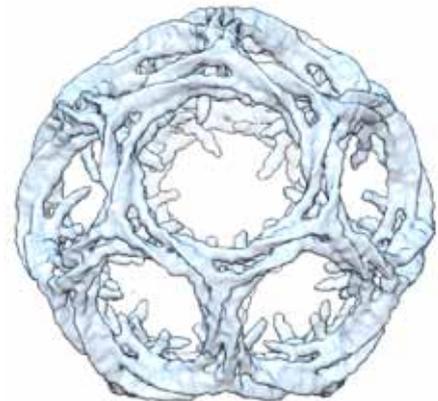

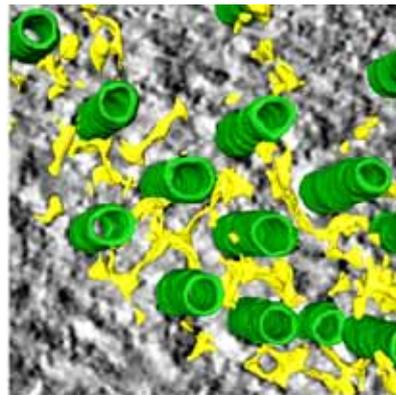

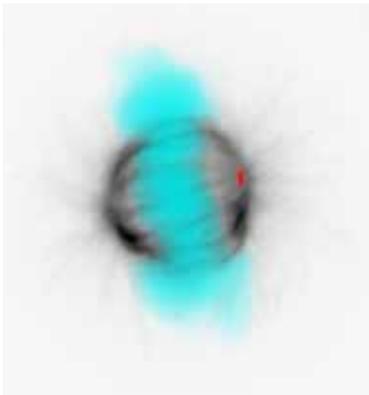

Do you want to develop cutting-edge imaging technology?

Got experience in 3D-EM or structure determination?

Want to help shape world-leading cell biology research?

We want to hear from you!

The RTP specialises in advanced light and electron microscopy with a focus on: cryo-electron microscopy for structural biology, dynamic 3D imaging using light sheet microscopy and correlative light and electron microscopy (CLEM).

### Informal enquiries to:

Corinne Smith ([corinne.smith@warwick.ac.uk](mailto:corinne.smith@warwick.ac.uk)) or Steve Royle ([s.j.royle@warwick.ac.uk](mailto:s.j.royle@warwick.ac.uk)).
