## PhD and postdoc openings in cryo-EM and computational structural biology

*coordinated by the Kastritis Laboratory, Center for Innovation  
Competence HALOmem | MLU Halle, Germany*

- Are you interested in cutting-edge research on protein interactions?
- Do you want to be part of a lively network of structural biologists?
- Do you want to work in a renowned environment for protein biochemistry?

HALOmem offers attractive PhD and postdoc positions and short-term fellowships in cryo-electron microscopy, computational structural biology, biochemistry and their integration. **Apply now!**

Martin Luther University of  
Halle-Wittenberg

**Information and application**  
panagiotis.kastritis@bct.uni-halle.de

**Application deadline**  
**31<sup>st</sup> March, 2019**
