

2nd COMPPÅ Symposium on Membrane Protein Production and Analysis

Topics will include sample preparation, structural and functional characterization and computational analysis of integral membrane proteins

30 July - 1 August 2020

Roy and Diana Vagelos Education Center
Columbia University Medical Center, New York

Confirmed speakers:

Wolfgang Baumeister

Max Planck Institute-Munich

Gira Bhabha

NYU School of Medicine

Paula Booth

King's College London

Olga Boudker

Weill Cornell Medical College

Vadim Cherezov

University of Southern California

Linda Columbus

University of Virginia

Bill DeGrado

University of California, San Francisco

Ken Dill

Stony Brook University

Vasanthi Jayaraman

University of Texas, Houston

Brian Kobilka

Stanford University

Emily Liman

University of Southern California

Anna Moroni

University of Milan

Osamu Nureki

University of Tokyo

Carol Robinson

University of Oxford

Lionel Rouge

Genentech

Renae Ryan

University of Sydney

Janet Smith

University of Michigan

Bob Stroud

University of California, San Francisco

Emad Tajkhorshid

University of Illinois, Urbana-Champaign

Liguo Wang

Brookhaven National Laboratory

James Whisstock

Monash University

Hao Wu

Harvard Medical School

Online registration and
abstract submission:

www.comppaa.org

Deadline 15 June 2020

Participation fees

\$190 Student

\$260 Academic

\$520 Industry

COMPPÅ

Center on Membrane Protein Production and Analysis

New York Structural Biology Center
