

2nd COMPPÅ Symposium on Membrane Protein Production and Analysis

Topics will include sample preparation, structural and functional characterization and computational analysis of integral membrane proteins

22 - 24 June 2022

Roy and Diana Vagelos Education Center
Columbia University Medical Center, New York

Confirmed speakers:

Wolfgang Baumeister
Max Planck Institute-Munich

Vasanthi Jayaraman
University of Texas, Houston

Bob Stroud
University of California, San Francisco

Gira Bhabha
NYU School of Medicine

Brian Kobilka
Stanford University

Emad Tajkhorshid
University of Illinois, Urbana-Champaign

Paula Booth
King's College London

Emily Liman
University of Southern California

Sarah Veatch
University of Michigan

Olga Boudker
Weill Cornell Medical College

Anna Moroni
University of Milan

Liguo Wang
Brookhaven National Laboratory

Vadim Cherezov
University of Southern California

Osamu Nureki
University of Tokyo

James Whisstock
Monash University

Linda Columbus
University of Virginia

Carol Robinson
University of Oxford

Michael Wiener
University of Virginia

Ken Dill
Stony Brook University

Lionel Rougé
Genentech

Hao Wu
Harvard Medical School

Renae Ryan
University of Sydney

Online registration and
abstract submission:
